

Towngas China Group receives Extraordinary Contribution Enterprise Award

(13 November 2018) The 14th China Extraordinary Corporate Citizen Annual Awards Ceremony took place in Beijing. Themed “promoting precision in exercising due diligence and enabling intelligent enterprises”, the event saw over 150 guests attending, including relevant government department leaders, professionals and academics, corporate representatives and the media, who enjoyed an exchange exploring the ways intelligent enterprises can more precisely exercise their due diligence.

The Group was selected among numerous candidates as the recipient of the 2018 Five-Star China Extraordinary Corporate Citizen Award, the highest honour awarded. This is the fifth time the Group has participated in this award selection, which happens to take place on the 40th anniversary of the Chinese economic reform. Since our entry into the mainland market, Towngas China Group has taken part in the organisation and participation of a wide range of community activities in a bid to enhance our communication with stakeholders such as our shareholders, customers, the government as well as the society. We aim to shoulder our social responsibility through being an excellent corporate citizen, and building a transparent corporate social responsibility system step by step. Our receiving this award is proof that our efforts in promoting the

development of corporate citizenship has been widely recognised.

In addition, Towngas China Gentle Breeze Movement was also the recipient of the 2018 China Corporate Citizen Extraordinary Charity Project award. Launched in 2013, the movement has strived to improve the learning and living environment of students in rural areas through school aid and poverty alleviation. The Group hopes to pool together resources from all our project companies across the country to target those in need and try our best to improve the rural school environment and communicate our love for students in need like a warm breeze.

As one of the sizeable city gas corporates in the mainland, the Group not only demonstrates its development capability and potential through its business performance, but also earns the trust of the public through its sense of social responsibility as an extraordinary corporate citizen.

Founded in 2005 by the China Corporate Citizenship Committee of the China Association of Social Workers, China Central Television, and Tencent Charity Foundation, the Corporate Citizen Annual Conference aims to advocate the principles of corporate citizenship and encourage corporations to take initiative in shouldering social responsibility and contribute to socioeconomic development.
